Accent Row - Now you can continue your tile accent through the glass block wall by replacing a row of block with a band of Ready 4 Tile™ (wedi®). The band of Ready 4 Tile™ is recessed by 1/2" on both sides and will finish flush with the glass block once tiled with the tile of your choice. Accent row will be placed on the 6th row from the bottom unless otherwise specified.

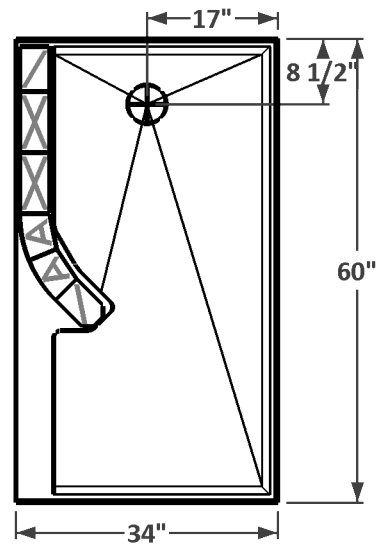

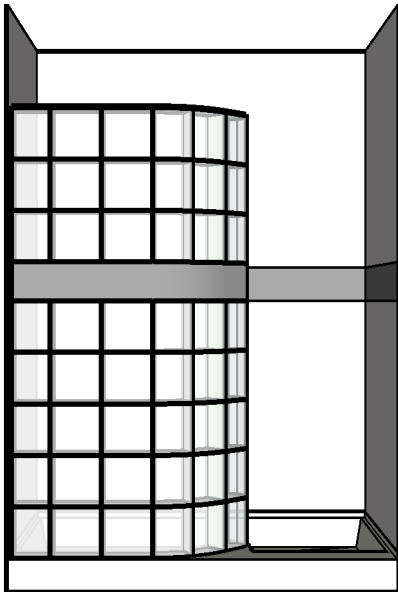

Note: wedi® band is 6" tall which will reduce the overall height of the glass block wall by 2".

Tile is not included.

Acrylic Shower Pan

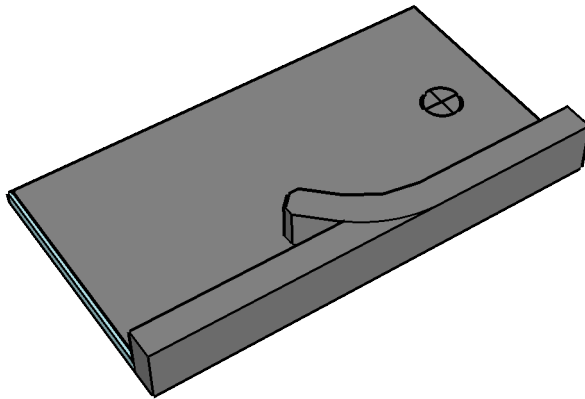

The Tub & Shower Replacement Acrylic Shower Pan is available in your choice of White or Biscuit. Left & Right Entry available*. Shower pan includes a brass No-Caulk drain. Glass block wall will install on top of radius curb molded into shower pan.

Acrylic shower pan is installed in a bed of mortar. Bag of mortar available for purchase, see price list for this option.

*Right Entry Shown Here

Ready 4 Tile™ Shower Pan

We offer the same pan configuration in our Ready 4 Tile™ Shower Pan option. Left & Right entry available*.

This waterproof pan can be customized to fit your dimensions and drain location. The presloped shower pan is simply glued into place with modified thinset and includes a twist-tight drain. The pan is now ready for tile.

Contact our sales representatives for a quote on this shower pan option.

*Left Entry Shown Here

Tile is not included.
