

THE MOST COMPLETE AND  
PROFESSIONAL SOURCE FOR  
GLASS BLOCK AND GLASS  
FLOORING SYSTEMS

Dear Valued Customers,

After nearly 40 years in the glass block business, it is finally time for us to stop offering and/or servicing glass block effective June 30<sup>th</sup>, 2022.

This decision was not made lightly. After Pittsburgh Corning, the ONLY American manufacturer of glass block closed their doors, we searched to find a glass block that would work for our customers. One that offered a similar product line, at a reasonable price. So, we made the move to Mulia, an Indonesian manufacturer. Over the last few years Mulia has continued to drop many of the patterns and sizes they are willing to make and import into the US market. Due to COVID-19, raw material prices have increased significantly as well as international freight costs. There have been so many price increases over the last two years. We have absorbed as many increases as we can and recently we received another significant price increase, so we have made the tough decision to stop offering glass block.

We do have enough glass block on hand to last us through the second quarter. As we draw closer to June 30<sup>th</sup>, we will re-evaluate this timeframe and keep you up to date of any changes.

Until then, please feel free to reach out to us with any of your glass block needs. We are still here to support you any way we can.

After June 30<sup>th</sup>, we suggest you contact Sierra Glass Block out of Sacramento, CA. They use similar products and systems and have been in the glass block business as long as we have. They will no doubt treat you well.

They can be reached at (916) 455-5507 or email: [sales@sierraglassblock.com](mailto:sales@sierraglassblock.com)

Rest assured we will still be here, continuing to offer all our other product lines. As always, feel free to reach out to us with any questions.

Sincerely,  
The Team at Seattle Glass Block
